

PEER-REVIEW REPORT

Name of journal: *World Journal of Hepatology*

Manuscript NO: 94493

Title: Predictive value of serum alanine aminotransferase for fatty liver associated with metabolic dysfunction.

Provenance and peer review: Invited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer’s code: 05430684

Position: Peer Reviewer

Academic degree: MD, MSc, PhD

Professional title: Consultant Physician-Scientist, Research Fellow

Reviewer’s Country/Territory: Greece

Author’s Country/Territory: China

Manuscript submission date: 2024-03-19

Reviewer chosen by: AI Technique

Reviewer accepted review: 2024-03-21 10:13

Reviewer performed review: 2024-03-23 10:36

SPECIFIC COMMENTS TO AUTHORS

I have studied the manuscript entitled "Predictive value of alanine aminotransferase for metabolic dysfunction-associated fatty liver disease" by Liu W. at al. The manuscript is carefully prepared. The language used is proper and lacks syntax errors or typos. The authors provide the rationale for assessing the novelty of the paper by Chen JF et al. As MAFLD is a relatively newly introduced entity, such an editorial could be of additional educative value and thus could be of interest to a broad readership. There are no comments/issues to be assessed. I have no objection for publication.
