SPECIFIC COMMENTS TO AUTHORS

The authors submit a systematic review manuscript focusing on long-term outcomes of interventions for radiation-induced xerostomia. After reading the entire manuscript, the content would have potential interest and benefit to the related medical care providers.

E-mail: bpgoffice@wjgnet.com
https://www.wjgnet.com

Can the authors also provide representative of clinical picture of xerostomia in the first paragraph of the introduction? This would enhance of the impact of the manuscript, to my opinion.

SPECIFIC COMMENTS TO AUTHORS

Dr. Ma and the other authors made a review of various methods for radiation-induced xerostomia in head and neck cancer patients and evaluated the long-term efficacy. The review is short but informative for readers interested in the topic. One shortcoming is
