### Evolving management of metaplasia and dysplasia in Barrett's epithelium

Richard PT Evans, Moustafa Mabrouk Mourad, Simon G Fisher, Simon R Bramhall

#### Abstract

Oesophageal cancer affects more than 450000 people worldwide and despite continued medical advancements the incidence of oesophageal cancer is increasing.

Oesophageal cancer has a 5 year survival of 15%-25% and now globally attempts are made to more aggressively diagnose and treat Barrett's Oesophagus the known precursor to invasive disease. Currently diagnosis the of Barrett's Oesophagus is
