

**Supplementary Figure 1 Inhibition of Myc-associated zinc finger protein inhibits the migration and invasion of colorectal cancer cells.** A and B: Transwell assay images and quantification showed the migration and invasion of colorectal cancer cells after Myc-associated zinc finger protein knockdown. Data are presented as the mean  $\pm$  SD. \* $P < 0.05$ , \*\* $P < 0.01$ . The dashes represent the comparisons between groups. The experiments were repeated at least three times independently.
