

April 30th, 2024

To whom it may concern,

I hereby declare that I have been in charge of the English revision and editing of the manuscript titled "Hyoid metastasis an unusual location from lung cancer".

Although I am not a native English speaker, I am attaching a document that certifies a C2 English level according to the University of Cambridge ESOL, which grants a level which is equivalent to that of a native English speaker.

Yours faithfully,

Juan Zafra

A handwritten signature in black ink, appearing to read 'Zafra', with a stylized flourish extending from the end.
