Basic Study

Herb-partitioned moxibustion alleviates colon injuries in ulcerative colitis rats

Dan Zhang, Yan-Bo Ren, Kai Wei, Jue Hong, Yan-Ting Yang, Li-Jie Wu, Ji Zhang, Zheng Shi, Huan-Gan Wu, Xiao-Peng Ma

Abstract

AIM

To observe the effect of herb-partitioned moxibustion (HPM) on expression of colonic cytokines in ulcerative colitis (UC) rats.

METHODS

A UC rat model was established by protein immunization in combination with topical
