

Supplementary Figure 1 The scatter plot figuratively expressed the changes of circRNA expression between the HCT116-5FuR cells and HCT116 cells and Lovo-5FuR cells and Lovo cells. A: HCT116-5FuR cells and HCT116 cells; B: Lovo-5FuR cells and Lovo cells.

Supplementary Figure 2 The scatter plot figuratively expressed the changes of mRNA expression between the HCT116-5FuR cells and HCT116 cells and Lovo-5FuR cells and Lovo cells. A: HCT116-5FuR cells and HCT116 cells; B: Lovo-5FuR cells and Lovo cells.

Supplementary Table 1 Primers sequences used in this study

Gene name	Forward primer	Reverse primer
