COMMENTS TO AUTHORS

This is an interesting paper which may improve our knowledge in the fiels. The subject matter is suitable for the intended audience and it fits the journal scope. Article is mostly clearly written, but Title is suggestive of the article's content. Article is appropriately organized and the headings are indicative of content I suggest to accept this paper in the present form.

COMMENTS TO AUTHORS

In my opinion, this manuscript is well written and needs only some minor revision: 1- the title should be revised; I suggest current pharmacologic therapies 2- I suggest to add the effects of probiotics and synbiotics on NAFLD treatment too such as Eslamparast T, Poustchi H, Zamani F, Sharafkhah M, Malekzadeh R, Hekmatdoost A Synbiotic supplementation in nonalcoholic fatty liver disease: a randomized, double-blind, placebo-controlled pilot study. Am J Clin Nutrition. 2014;99:535-42.
