Clinical overview of hypertensive crisis in children

Wen-Chieh Yang, Mao-Jen Lin, Chun-Yu Chen, Han-Ping Wu

Abstract

¹⁹ Hypertensive emergencies and hypertensive urgencies in children are uncommonly encountered ¹³ in the pediatric emergency department (ED and intensive care units (ICU)), but the diseases represent potentially life-threatening medical emergency. In comparison with in adults, the patients with hypertension in children are mostly asymptomatic and most of them have no history of hypertension. Additionally, measuring accurate blood
