Bariatric surgery in patients with non-alcoholic fatty liver disease - from pathophysiology to clinical effects

Tea L Laursen, Christoffer A Hagemann, Chunshan Wei, Konstantin Kazankov, Karen L Thomsen, Filip K Knop, Henning Grønbaek

Abstract

Non-alcoholic fatty liver disease (NAFLD) is increasingly recognized as a significant liver disease, and it covers the disease spectrum from simple steatosis with a risk of development of non-alcoholic steatohepatitis (NASH) to fibrosis, subsequent
