Dear Editor

Below you can find the responses to your requests.

Enclosed you will find the required files as attachments to the e-mail.

1. The highest single-source similarity index in the CrossCheck report showed to be 13%. The CrossCheck results showed the similarity to be high. According to our policy, the overall similarity index should be less than 30%, and the single-source similarity should be less than 5%. Please rephrase these repeated sentences.

I have rephrased repeated sentence at my best. Please consider that some words are very difficult or quite impossible to replace (for example WHO, specific names of tumors etc).

2. Figure 1: If an author of a submission is re-using a figure or figures published elsewhere, or that is copyrighted, the author must provide documentation that the previous publisher or copyright holder has given permission for the figure to be re-published; and correctly indicating the reference source and copyrights.

Figure 1 is taken from reference 6, an open-access article. I contacted Oxford press and they responded that *"Articles published in Open Access journals are in the public domain and may be used and reproduced without special permission. However, anyone using the material is requested to properly cite and acknowledge the source"*.

I have specified this point in Figure 1 legend.

3. Figure 2: Please consider providing clearer figures. Please provide the decomposable figure of figures and the text in your figure(s) in text boxes, whose parts are all movable and editable, organize them into a PowerPoint file, we need to edit the words in the figures (please see Figure-samples).

Done

4. Please upload the above files as a compressed file (zip or rar) as soon as possible, preferably within one week. Or send the files to [REDACTED]

I am sending all required files as attachments to this e-mail

Thank you very much for your support, and please let me know if it is all fine.

Best regards

Elia De Maria
