<input type="checkbox"/> Grade A (Excellent)	<input type="checkbox"/> Grade A: Priority Publishing	Google Search:	<input type="checkbox"/> Accept
<input type="checkbox"/> Grade B (Very good)	<input type="checkbox"/> Grade B: minor language polishing	<input type="checkbox"/> Existed	<input type="checkbox"/> High priority for publication
<input type="checkbox"/> Grade C (Good)	<input type="checkbox"/> Grade C: a great deal of language polishing	<input type="checkbox"/> No records	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade D (Fair)	<input type="checkbox"/> Grade D: rejected	BPG Search:	<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E (Poor)		<input type="checkbox"/> Existed	<input type="checkbox"/> Major revision
		<input type="checkbox"/> No records	

## COMMENTS TO AUTHORS

It was a pleasure to review this manuscript by Dr. Richard H. W. Funk and associates. That was well written review article and it was a pleasure for me to read. The theme on the role of blue light in the development of AMD is a very nice topic and acceptable. I have no comments in this review article.

## COMMENTS TO AUTHORS

This is an excellent review. It would be helpful if the authors provide a single figure demonstrating mechanisms of photoreceptor and RPE degeneration induced by light.
