Retrospective Cohort Study

Outcomes of surrogate pregnancies in California and hospital economics of surrogate maternity and newborn care

Yona Nicolau, Austin Purkeypile, T Allen Merritt, Mitchell Goldstein, and Bryan Oshiro

Abstract

AIM: To describe maternity and newborn charges for an economic analysis of surrogate pregnancies on the health care resource utilization.

METHODS: A retrospective chart review of all women identified as being a surrogates and the infants born from these pregnancies was performed between January 1, 2012 and December 31, 2013. Selected maternity diagnoses, mode of delivery, duration of hospitalization, and hospital charges were collected together with infants' birth weights, gestational age, length of hospital stay, and hospital charges. Charges
