

World Journal of Radiology

Manuscript n. 40801

Manuscript type: retrospective study

**HRCT findings in adult patients with humoral primary immunodeficiency diseases: prevalence in different subtypes and correlation with pulmonary function tests**

**Lorenzo Cereser, Marco De Carli, Paola d'Angelo, Elisa Zanelli, Chiara Zuiani, Rossano Girometti**

**Biostatistics Review Certificate:** the statistical analysis of the present study was performed and verified by the co-author Assistant Professor Dr. Rossano Girometti.

Sincerely,

Lorenzo Cereser
