To Whom It May Concern

Universal translation office certify that the document entitled as "The role of oral-fluid based measles diagnostic methods for measles global elimination" submitted for publication to the **World Journal of Experimental Medicine ESPS Manuscript NO: 3876** has been edited perfectly and meet the English language standard. To this effect I, Tewodros Tsegaye, competent editor and the general manager of the translation office Mr. Eyoel Haileyesus, have affixed our signature hereunder.
