SPECIFIC COMMENTS TO AUTHORS

1. The author displayed too few figures in the main text. Additional figures to illustrate the change in popularity of keywords on a time axis might help to show how the research trend might have been changing over the time, such as timeline view of keywords and citation burst analysis of keywords

2. Why was VosViewer used for the analysis, in comparison to Citespace or Bibliometrix? Why was Scopus used in comparison to other bibliographic databases like WoS?

3. The deadline for this analysis is June 15, 2021, and now it is June 2022. I recommended that the author should update the data.

4. The author should add a flowchart regarding the filtering of articles.
