JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

Surgical manual skills improving - what to test before and how to measure in theatre - An interesting topic, which has been worked on in the literature several times before. I feel that a systematic review would fit better to the World Journal of Gastrointestinal Surgery, as the subject is not touched as a whole. Technically speaking, I don't see any obstacles if a sharpened overview would need more space to be published though.
