

Biostatistics Statement

21 June 2024

To whom it may concern

Title: Risk Factors and Risk Prediction Model for Mucocutaneous Separation in Enterostomy Patients: A Single Center Experience.

MS Number: 96993

This letter is to confirm that I have validated the biostatistics methods used in this study and in my opinion are appropriate for the research.

Please contact me if you have any questions.

Sincerely,

Joseph Mugaanyi, M.D,
