

Certificate of Biostatistics Review

December 5, 2024

To whom it may concern,

Title of Study: Factors associated with false fecal immunochemical test results in colorectal cancer screening

Authors: Shu-Yuan Wang et al.

Chief Investigator: Chun-Ze Zhang

Institution of the Chief Investigator:

Department of Colorectal Surgery, Tianjin Union Medical Center

This letter is to confirm that I have reviewed the study proposal and the statistical methods and techniques planned for this research. In my professional opinion as a biostatistician, the methods and techniques described are appropriate for the study's objectives and will contribute to the validity and reliability of the results.

I have also ensured that the study design adheres to ethical standards and that the data analysis plan is robust and in line with current statistical practices.

Please do not hesitate to contact me should you have any questions or require further clarification.

Sincerely,

Wei Cui, Ph.D.

Department of Mathematics, Nankai University
