### Scientific significance of the conclusion in this manuscript

- Grade A: Excellent
- Grade B: Good
- Grade C: Fair
- Grade D: No scientific significance

### Language quality

- Grade A: Priority publishing
- Grade B: Minor language polishing
- Grade C: A great deal of language polishing
- Grade D: Rejection

### Conclusion

- Accept (High priority)
- Accept (General priority)
- Minor revision
- Major revision
- Rejection

### Re-review

- Yes
- No

### Peer-reviewer statements

- Peer-Review: Anonymous
- Onymous
- Conflicts-of-Interest: Yes
- No

### SPECIFIC COMMENTS TO AUTHORS

The manuscript by Schinas et al discusses a very important problem in the healthcare sector. With the rising incidence of drug-resistant fungal infections and the declining novel antifungal discovery, the problem and the solutions are highlighted in this article properly. Overall, the manuscript is very well written and presented in a lucid manner. I do not have any specific comments on the manuscript.
