Retrospective Study

Healthcare seeking trends in acute respiratory infections among children of Pakistan

Hana Mahmood, Samina Mohsin Khan, Saleem Abbasi, Yahya Sheraz

Abstract

AIM:

To assess healthcare seeking trends among Pakistani children with Acute Respiratory Infections through comparative analysis between DHS 2006-07 and 2012-13.

METHODS:

Data of the last born children 0-24months of age of the sampled households from both the Demographic Health Surveys (DHS) was analyzed after seeking permission from
