ESPS JOURNAL EDITOR-IN-CHIEF'S REVIEW REPORT

Name of journal: World Journal of Experimental Medicine

ESPS manuscript NO: 17858

Title: Endoplasmic reticulum stress-mediated pathways to both apoptosis and autophagy: Significance for melanoma treatment

Journal Editor-in-Chief (Associate Editor): De-Ling Kong

Country: China

Editorial Director: Xiu-Xia Song

Date sent for review: 2015-08-27 12:03

Date reviewed: 2015-08-28 17:03

JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

The authors have thoroughly revised the language of the manuscript and corrected all typing errors. Several paragraphs have been added to the manuscript, which introduced the information about the old chemotherapy, the role of apoptosis and autophagy regarding to the key role of ER stress in the modulation of these processes, and highlighted the mechanistic role of ER stress in tumor cells. I think the quality of the manuscript has been markedly improved after revision. I have no further question for its acceptance.
