#### [HTML] Hepatitis C virus in Iran: Epidemiology of an emerging infection

SM Alavian, P Adibi, MR Zali - Arch Iranian Med, 2005 - ams.ac.ir

epatitis C infection is now the most common cause of end-stage liver disease in many countries. It is a blood-borne infection that was a well-known cause of posttransfusion hepatitis after introduction of hepatitis B screening in blood banking and before ...

#### Molecular epidemiology of hepatitis C virus in Iran as reflected by phylogenetic analysis of the NS5B region

K Samimi - Rad, R Nategh... - Journal of medical ..., 2004 - Wiley Online Library

Abstract Hepatitis C virus (HCV) subtypes were determined in 125 Iranian patients by phylogenetic analysis within the NS5B or 5'-UTR/core regions. Subtypes 1a and 3a were predominant accounting for 47 and 36%, whereas 1b and 4 accounted for 8 and 7%. This ...

#### [HTML] Epidemiology of hepatitis B, hepatitis C, and human immunodeficiency virus infections in patients with beta-thalassemia in Iran: a multicenter study

S Mirmomen, SM Alavian, B Hajarizadeh, J Kafaei... - Arch Iran Med, 2006 - ams.ac.ir

Background: Though regular blood transfusion improves the overall survival of patients with  $\beta$ -thalassemia, it carries a definite risk of infection with blood-borne viruses. We carried out this multicenter study to provide epidemiologic data on hepatitis B virus (HBV), hepatitis C ...
