CERTIFICATE OF ENGLISH EDITING

This document certifies that the abstract listed below has been edited to ensure that the language is clear and free of errors. The logical presentation of ideas and the structure of the abstract were also checked during the editing process. The edit was performed by professional editors at Editage, a division of Cactus Communications, in cooperation with Taylor & Francis Group. The intent of the author's message was not altered in any way during the editing process. The quality of the edit has been guaranteed, with the assumption that our suggested changes have been accepted and have not been further altered without the knowledge of our editors.

Title

Tumor microenvironment-driven miRNA dysregulation: Key interactions in colorectal cancer progression

Authors
