SPECIFIC COMMENTS TO AUTHORS
Yes, the title reflects the main subject of letter, the abstract summarizes the alcohol consumption and HBV infection, and key words reflect the focus of letter. Recently, more and more HBV-specific immune mechanisms have been discovered, which has inspired clinicians and immunologists to collaborate to study the interplay between immune mechanisms and clinical events in hepatitis B. Authors summarized the relationship between alcohol consumption and immune responses in CHB patients to explore the underlying HBV-specific immune mechanism in alcohol liver disease. The findings of this letter are accepted by me.

SPECIFIC COMMENTS TO AUTHORS
The authors have elucidated the possible mechanisms of alcohol induced exacerbation chronic liver diseases associated to HBV infection. also, they have provided valuable information regarding the areas of research and also obscure areas where more research is needed. I believe the text is professionally written.

SPECIFIC COMMENTS TO AUTHORS
This Letter to the Editor is based on the article that is published in World Journal of Gastroenterology, entitled “Role of alcohol in the pathogenesis of hepatitis B virus (HBV) infection”. This letter is well written and will bring new insight to this field. I recommend this letter for publication with minor revision. Minor comment: 1) Please correct "IFN type 1-y-y".

SPECIFIC COMMENTS TO AUTHORS
Muro et al. wrote a letter to the editor about hepatitis B viral infection and the role of alcohol. The title reflects the main subject. The style, language, and grammar are appropriate. The abstract summarizes and reflects the work described. Minor comments:
- References need some updates
- Abbreviations: are not adequately used. For example, HBcAg was mentioned firstly on page 3 without being previously spelled out. Then it was spelled out on the next page.
- "The authors examine the variables above for the increased risk of liver illnesses"-----what do you mean by the variables above?"----- also, please change examine to examined.
- What is IFN-γ? Do you mean IFN-γ?
