SPECIFIC COMMENTS TO AUTHORS

This paper is interesting and well written, and provide a view of colorectal screening. Nevertheless, the manuscript presents minor issues that need to be addressed, as follows:

- 1) A very recent study on DNA Blood-Based Test for Colorectal Cancer Screening published some days ago on NEJM should be cited and briefly discussed. -A Cell-free DNA Blood-Based Test for Colorectal Cancer Screening. N Engl J Med. 2024 Mar 14;390(11):973-983. doi: 10.1056/NEJMoa2304714. PMID: 38477985.
