### COMMENTS TO AUTHORS

This is an interesting article summarising a case of PI and intususception with a review of the cases in the literature. The paper would be further strengthened by summarising the clinical presentations of these cases with a view to understanding if there are any distinct patterns that differentiate this from other non-operative conditions as mentioned in the text. Some grammatical errors need correcting

Two questions: 1.Was the intussusception ileo-colic or colo-colic? 2.Was The intussusception cephalic or caudal to the polypoid lesion? .
