

## **Editorial Certification**

This document certifies that the manuscript titled "The long non-coding RNA ATB promotes autophagy by activating YAP and inducing ATG5 expression in hepatocellular carcinoma" was edited for proper English language, grammar, punctuation, spelling, and overall style by one or more of the highly qualified native English speaking editors at ELIXIGEN. Neither the research content nor the authors' intentions were altered in any way during the editing process.

Documents receiving this certification should be English-ready for publication - however, the author has the ability to accept or reject our suggestions and changes. To verify the final ELIXIGEN edited version, please contact ELIXIGEN at [support@elixigen.com](mailto:support@elixigen.com)
