SPECIFIC COMMENTS TO AUTHORS
In this case report, the authors reported a 50-year-old woman with no preexisting hepatic disease who developed a cutaneous allergic reaction to subcutaneous vitamin K1 and reviewed the adverse cutaneous reactions to vitamin K1. It is interesting; however, two concerns are for your consideration. 1. Abbreviations (ex. p5, line 84, “CARE”…) should be with its full name when it firstly appears in the paper. 2. Figures’ (2 & 3) legends are incomplete
