Complete mesocolic excision and central vascular ligation ...

<https://www.sciencedirect.com/science/article/pii/S0960740416300287>

Sep 01, 2016 · Hohenberger et al. firstly described **complete mesocolic excision** (CME) in conjunction with **central vascular ligation** (CVL) and emphasized the sharp dissection along the **mesocolic** plane with true central ligation of the main arteries and veins at their roots. The authors analyzed data of 1329 patients undergoing R0 resection for **colon cancer**.

[PDF] Complete Mesocolic Excision With Central Vascular Ligation ...

pdfs.semanticscholar.org/57ab/c978143a668c89940f60e9be7ea9eb288dcb.pdf

benefit as a total mesorectal **excision** for the treatment of patients with **rectal cancer**. In 2009, Hohenberger et al. [1] introduced a new concept trying to translate survival advantages to patients with **colon cancer**. This new concept of a **complete mesocolic ex-cision** (CME) with a **central vascular ligation** (CVL) in the man-agement of patients ...

No benefit of extended mesenteric resection with central ...

<https://pubmed.ncbi.nlm.nih.gov/26896151>

The study showed no survival benefit by more extended **mesenteric** resection, indicating that there is no need to extend the **mesenteric** resection to involve the MCVs in **cancer** of the caecum or ascending **colon**. On the contrary, increased peri-operative mortality by more extensive **mesenteric** resection w ...

Laparoscopic complete mesocolic excision with central ...

<https://pubmed.ncbi.nlm.nih.gov/34031741>

Laparoscopic CME with CVL for splenic flexure **colon cancer** appears to be oncologically safe and feasible based on the short- and long-term outcomes in our study. However, it is careful to introduce this procedure to necessitate the anatomical understandings and surgeon's skill. The appropriate indic ...

Standardized surgery for colonic cancer: Complete ...

<https://www.researchgate.net/publication/23481059...>

Dec 01, 2008 · **Complete mesocolic excision** (CME) with **central vascular ligation** (CVL) for **colon cancer** was introduced by Hohenberger and has improved oncologic outcomes after surgery. This concept of **CME** ...
