Dear editor,

This retrospective, cross-sectional study was approved by the Institutional Ethical Committee of Nanjing First Hospital, Nanjing Medical University (KY20190926-01). This study was conducted in accordance with the Declaration of Helsinki guidelines. The need for informed consent were waived for the present study because the research involved no more than minimal risk to the subjects, and the waiver did not adversely affect the rights and welfare of the subjects. All data was retrospectively collected from a medical review database without any identifiable private information with the consent of the corresponding department.

If you have any questions about this, we will be happy to further improve our articles according to your requirements!

Sincerely,

Jian-hua Ma, M.D.

Department of Endocrinology, Nanjing First Hospital, Nanjing Medical University.
