## ESPS PEER-REVIEW REPORT

**Name of journal:** World Journal of Experimental Medicine

**ESPS manuscript NO:** 15457

**Title:** From bench to bedside - are there new approaches for the diagnosis, therapy guidance and outcome prediction of sepsis?

**Reviewer's code:** 00503926

**Reviewer's country:** Brazil

**Science editor:** Yue-Li Tian

**Date sent for review:** 2014-11-27 19:50

**Date reviewed:** 2014-12-17 02:14

### COMMENTS TO AUTHORS

The review by Kojic and collaborators critically and thoroughly analyses the state of knowledge of sepsis-related biomarkers by reviewing previous and latest literature in the field. The conclusions they reached is that "the assessment of biomarkers can be a complementary tool in clinical decision making" but not a proven method. Further improvements in the field must be gained to use a biomarker-guided therapy approach.
