Liver transplantation in adult patients with portal vein ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2225512>

Introduction. **Portal vein thrombosis** (PVT) is a well recognized complication of patients with end-stage cirrhosis and its incidence ranges from 2 to 26% in different series 1. The etiology, not yet fully understood, is based on the thrombotic tendency related to several factors: altered **liver** anatomy that increases the intrahepatic resistance to **portal** flow, endothelial injury due to an ...

<https://pdfs.semanticscholar.org/2669/697ce8fed68ee19a1989cb7fbcdbcde882b6.pdf>

Portal vein thrombosis is not a contraindication for **liver transplantation** anymore. There are many strategies to perform the **liver transplantation** in this condition, depending on **portal vein thrombosis** grade. Regardless higher morbidity and re-thrombosis rates, the outcomes of **liver transplantation** in **portal vein thrombosis** are similar to ...

Liver transplant in patients with portal vein thrombosis ...

<https://aasldpubs.onlinelibrary.wiley.com/doi/full/10.1002/lt.24856>

Aug 17, 2017 · Pretransplant **portal vein thrombosis** is associated with increased postliver **transplant** morbidity and mortality. Preoperative imaging with CT and ultrasound is essential to determine extent of **portal vein** thrombus and to identify a site of mesenteric **inflow** for the **liver** allograft.
