PEER-REVIEW REPORT

Name of journal: World Journal of Clinical Cases
Manuscript NO: 65645
Title: Preliminary establishment of a spinal stability scoring system for multiple myeloma
Reviewer’s code: 05350625
Position: Peer Reviewer
Academic degree: FCPS, MBBS
Professional title: Assistant Professor
Reviewer’s Country/Territory: Pakistan
Author’s Country/Territory: China
Manuscript submission date: 2021-03-12
Reviewer chosen by: AI Technique
Reviewer accepted review: 2021-06-19 08:14
Reviewer performed review: 2021-06-21 04:29
Review time: 1 Day and 20 Hours

SPECIFIC COMMENTS TO AUTHORS
The study is aimed at establishment of the MM spine stability scoring system, which can serve to provide a vital theoretical basis for the evaluation of spine stability in individuals with MM. The idea is novel and justified. The methodology based on DELPHI is robust and covers vital prerequisites. Moreover, the application on real time cases has been deemed appropriate. The limitations and future implications have been adequately addressed as well.
