Yes I approve. Also please check from both journals if they need to give permission too.

Thanks,

Umang

Dear Dr. Umang Swami,

Hope this email finds you well. I am Wynne Wijaya, a medical doctor in Indonesia and currently a Master's student pursuing a research degree at the Department of Oncology, University of Oxford.

Recently, my colleagues and I have just finished writing a review article about eribulin's role in breast cancer and we are submitting to the World Journal of Experimental Medicine.

We would like to ask if you would be so kind to give us permission to re-use 2 images from your published articles to enhance the presentability of our review:

- Figure 1 of Swami, U.; Shah, U.; Goel, S. Eribulin in Cancer Treatment. Mar. Drugs 2015, 13, 5016-5058. <https://doi.org/10.3390/md13085016>
- Figure 3 of Swami, U., Chaudhary, I., Ghalib, M.H. and Goel, S., 2012. Eribulin— a review of preclinical and clinical studies. Critical reviews in oncology/hematology, 81(2), pp.163-184.

Thank you very much for your kind consideration, much appreciated. I look forward to hearing back from you.

Best regards,  
Wynne Wijaya
