

Number ID: 04159951

Publication Name: World Journal of Orthopedics

Author: Fabrizio Rivera

Title: Direct Anterior approach hip arthroplasty: how to reduce complications. A 10-years single center experience and literature review.

Manuscript Type: Retrospective Study

Informed consent statement

In this retrospective analysis we used anonymous clinical data that were obtained after each patient agreed to treatment by written consent form; all patients accepted the proposed treatment and follow-up after adequate information and gave written consent. For full disclosure, paper copy is available at SS Annunziata Hospital, Savigliano (CN), Italy.
